

The Environmental Notice

A SEMI-MONTHLY BULLETIN (UNDER SECTION 343-3, HRS) OF THE OFFICE OF ENVIRONMENTAL QUALITY CONTROL

APRIL 23, 2006

Kapolei Harborside EISPN

The State Land Use Commission has submitted an EIS preparation notice (EISPN) for the applicant Kapolei Property Development, requesting a change from Agriculture to Urban for the development of 345 acres of former agricultural land. Intended use of the proposed Kapolei Harborside Center site is industrial and proposed development which includes industrial pads, supporting infrastructure, light manufacturing and warehousing, industrial service businesses and innovative land uses for industrially-zoned lands. Sensitive areas, historically relevant sinkholes, are proposed for preservation for scientific and archeological research. The majority of the site is vacant, though existing on-site uses include a nursery, a green waste collection and compost processing operation, fill material stockpiling, and a coal conveyor belt that transports materials to HECO power stations to the south. New industrial development in this location will provide new job opportunities for the expanding communities of Kapolei, 'Ewa, the Wai'anae Coast and Central O'ahu. See page 5 for more.

Kalaniana'ole Highway Improvements

The State Department of Transportation is proposing improvements to Kalaniana'ole Highway in the vicinity of Hawai'i Kai Drive to Keahole Street opposite Maunaloa Bay Beach Park. The project will convert one of the two right-turn lanes from Keahole Street onto Kalaniana'ole Highway into a "free right" turn lane, which will allow vehicles to continuously enter Kalaniana'ole Highway regardless of the traffic signal condition. The turning lane will be extended to the Hawai'i Kai Drive intersection. During peak hours when westbound traffic volumes are high, vehicles back up on Keahole Street. The changes will improve the operational efficiency of the Kalaniana'ole Highway and Keahole Street intersection. The project will involve the relocation of the existing mauka sidewalk, bike lane, and utilities. See page 4 for more.

Mamalaho Highway Improvements in Kealakekua

The Hawai'i Department of Public Works is proposing to develop a parking lot and bus shelter to serve the community of Kealakekua in South Kona. The property involved is situated on the west side of the Mamalaho Highway, approximately 234 feet south of the Ke'eKe'e Street-Mamalaho Highway intersection. They are part of the County's Mamalaho Highway Improvement Project which extends from Honalo to Captain Cook and are intended to address problems related to traffic congestion within this busy corridor. In addition to the subject parking lot and bus shelter, other improvements planned within the Kealakekua Section of the project include two-way left turn lanes, paved shoulders and sidewalks where possible. To construct the parking lot and bus shelter the County is proposing to lease two privately owned parcels of land totaling about 16,800 square feet. See page 8 for more.

Your guide to the Environmental Review Process

Draft Environmental Assessment

A project or action that may affect the environment cannot be implemented until an Environmental Assessment (EA) is prepared in accordance with Chapter 343, Hawai'i Revised Statutes (HRS). If the lead State or county agency (the *proposing agency* for agency actions, or the *approving agency* for applicant actions) anticipates that the project will have no significant environmental impact, then affected agencies, individuals, and organizations must be consulted and a Draft EA (DEA) is written and public notice is published in this periodic bulletin (see, section 343-3, HRS) known as the *Environmental Notice*. The public has 30 days to comment on the Draft EA from the date of the first notice.

Final Environmental Assessment and Finding of No Significant Impact

After the lead agency reviews the public comments, if it determines that the project will have no significant effect on the environment, and then it will prepare a Final EA (FEA) and issue a Finding of No Significant Impact (FONSI) formerly called a *Negative Declaration*. The Final EA must respond to all public comments. An Environmental Impact Statement will not be required and the project may now be implemented. The public has 30 days from the first notice of a FONSI in this periodic bulletin to ask a court to require the preparation of an EIS.

Final Environmental Assessment and Environmental Impact Statement Preparation Notice

When a lead agency decides that a project may have a significant environmental impact, an Environmental Impact Statement (EIS) must be prepared prior to implementing the project. Like the DEA (see *above*), affected agencies, individuals and organizations must be consulted prior to preparation of the final EA (FEA) and issuance of a determination called an EIS preparation notice (EISPN). (The EA is called *final*, to distinguish it from the draft, above). After the FEA is written by the lead agency, and notice of the FEA and EISPN is published in this periodic bulletin, any agency, group, or individual has 30 days from the first publication of the EISPN to request to become a consulted party and to make written comments regarding the environmental effects of the proposed action. The public (including an applicant) has 60 days from the first notice of an EISPN in this periodic bulletin to ask a court to not require the preparation of an EIS.

Draft Environmental Impact Statement

After receiving the comments on the FEA and EISPN (see *above*), the lead agency or private applicant must prepare a Draft Environmental Impact Statement (DEIS) prior to project implementation. This document must completely disclose the likely impacts of a project. Direct, indirect and cumulative impacts must be discussed along with measures proposed to mitigate them. The public has 45 days from the first publication date in this periodic bulletin to comment on a DEIS. The DEIS must respond to comments received during the FEA-EISPN comment period in a *point-by-point* manner.

Final Environmental Impact Statement

After considering all public comments filed during the DEIS stage, the agency or applicant must prepare a Final EIS (FEIS). The FEIS must respond in a *point-by-point* manner to all comments from the draft stage. Requisite deeper analyses must be included in the FEIS. For applicant projects, the approving agency is authorized to accept the FEIS. For agency project the Governor or the county mayor is the accepting authority. Only after the EIS is accepted may the project be implemented.

Acceptability

If the FEIS is accepted, the law requires that notice of this be published in this periodic bulletin. The public has 60 days from the date of first notice of acceptance to ask a court to vacate the acceptance of an EIS. In the case of applicant actions, the law requires that an approving agency must make a determination on acceptance within thirty-days of receipt of the FEIS or the FEIS is deemed accepted. Also, for applicant actions, the law provides for an administrative appeal of a non-acceptance to the Environmental Council.

National Environmental Policy Act

The National Environmental Policy Act (NEPA) requires federal projects to prepare an EA or EIS. In many ways it is similar to Hawai'i's law. Some projects require both a state (and county) and federal EIS and the public comment procedure should be coordinated. Although not required by law, the OEQC publishes NEPA notices in this periodic bulletin to help keep the public informed of important federal actions.

Conservation District

Any use of land in the State Conservation District requires a Conservation District Use Application (CDUA). These applications are reviewed and approved by the Board of Land and Natural Resources (BLNR). Members of the public may intervene in the permit process. Notice of these permit applications is published in this periodic bulletin.

Special Management Area

The Special Management Area (SMA) is along the coastlines of all our islands and development in this area is generally regulated by Chapter 205A, HRS and county ordinance. A special subset of the SMA that is regulated by Chapter 343, HRS is the Shoreline Setback Area. Most development in this area requires a Special Management Permit (SMP). This periodic bulletin posts notice of these SMP applications to encourage public input.

Shoreline Certifications

State law requires that Hawai'i shorelines be surveyed and certified when necessary to clearly establish the shoreline setback (an area contained between the certified shoreline and a prescribe distance inland (usually 40 feet) from the certified shoreline). The public may participate in the process to help assure accurate regulatory boundaries. Private land owners often petition to have their shoreline certified by the State surveyor prior to construction. This periodic bulletin publishes notice from the Department of Land and Natural Resources of both shoreline certification applicants and of final certifications or rejections.

Environmental Council

The Environmental Council is a fifteen-member citizen board appointed by the Governor to advise the State on environmental concerns. The council makes the rules that govern the Environmental Impact Statement process. The agendas of their regular meetings are published on the Internet at <http://www.ehawaii.gov.org/calendar> and the public is invited to attend.

Exemption Lists

Government agencies must keep a list describing the minor activities they regularly perform that are declared exempt from the environmental review process. These lists are reviewed and approved by the Environmental Council. This periodic bulletin will publish an agency's draft exemption list for public comment prior to Council decision making, as well as notice of the Council's decision on the list.

Endangered Species

This periodic bulletin is required by Section 343-3(c), HRS, to publish notice of public comment periods or public hearings for habitat conservation plans (HCP), safe harbor agreements (SHA), or incidental take licenses (ITL) under the federal Endangered Species Act, as well as availability for public inspection of a proposed HCP or SHA, or a proposed ITL (as a part of an HCP or SHA).

O'ahu Notices

APRIL 23, 2006

Kalaniana'ole Highway Improvements, Vicinity of Hawai'i Kai Drive to Keahole Street (HRS 343 DEA)

District: Honolulu
TMK: (1) 3-9-17:20 (por.) and highway right-of-way
Proposing Agency: State, Department of Transportation
869 Punchbowl St., Honolulu, HI 96813
Contact: Reid Tokuhara (692-7691)

Determination Agency: Same as above.
Consultant: Kimura International, Inc.
1600 Kapiolani Blvd., Ste. 1610, Honolulu, HI 96814
Contact: Ms. Leslie Kurisaki (944-8848)

Public Comment Deadline: May 23, 2006
Status: Draft environmental assessment (DEA) notice pending 30-day public comment. Address comments to the proposing agency with copies to the consultant and OEQC.

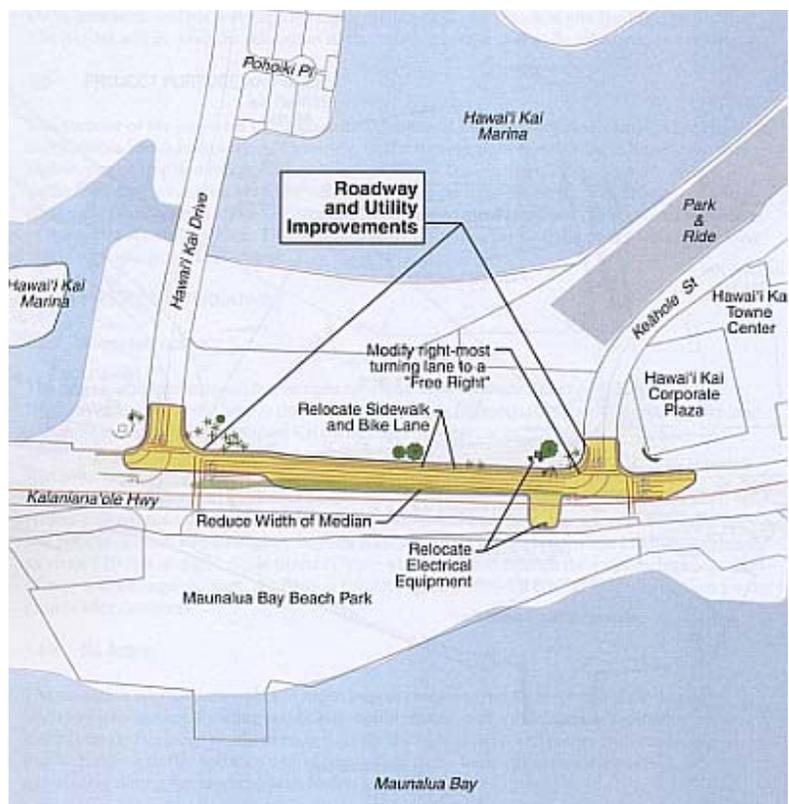

Permits Required: HRS Section 6E Historic Preservation Review/ Section 106 National Historic Preservation Act; Noise; NPDES; SMA Use Permit; other C & C Construction-related Permits.

This Draft Environmental Assessment has been prepared in accordance with the State of Hawai'i HRS Chapter 343 and Chapter 200 of Title 11, Department of Health Administrative rules, and the National Environmental Policy Act (NEPA), 42 U.S.C. 4332(2)(c).

Kalaniana'ole Highway Improvements, Vicinity of Hawai'i Kai Drive to Keahole Street, Federal-Aid Project No. HWY-O-04-04, is proposed by the State of Hawai'i Department of Transportation. The project is located in east Honolulu, across Maunalua Bay Beach Park in Hawai'i Kai. The project area encompasses the section of highway between Keahole Street on the east and Hawai'i Kai Drive on the west. It includes the State highway right-of-way and a portion of TMK parcel (1) 3-9-17:20, owned by B.P. Bishop Estate.

The project will convert one of the two right-turn lanes from Keahole Street onto Kalaniana'ole Highway into a "free right" turn lane. The turning lane will be extended until the Hawai'i Kai Drive intersection. The project will involve the relocation of the existing mauka sidewalk, bike lane, and utilities.

The project improvements will improve the operational efficiency of the Kalaniana'ole Highway and Keahole Street intersection. Currently, traffic turning right from Keahole Street onto the highway must stop and merge with westbound traffic. During peak hours when westbound traffic volumes are high, vehicles back up on Keahole Street. The creation of a free right turn condition will allow vehicles to continuously enter Kalaniana'ole Highway regardless of the traffic signal condition. This will improve traffic flow on Keahole Street without slowing traffic on Kalaniana'ole Highway.

Status: Final environmental assessment (FEA) and Environmental Impact Statement Preparation Notice (EISPN), pending 30-day public comment and requests to become a consulted party in the preparation of the upcoming draft environmental impact statement (DEIS). Address public comments on the FEA and/or requests to become a consulted party to the applicant with copies to the accepting authority, consultant and OEQC.

ban will further urbanize the area and strengthen the concept of the secondary urban center at Kapolei. A major consideration in public policy is to redirect traffic currently flowing into Honolulu proper by providing alternative employment centers outside of the existing urban core. Providing designated areas for industrial land and maritime support activities will help foster a favorable business climate in Hawai'i. This EISPN provides an overview of the technical, environmental, social and economic aspects of the proposed project. The Draft EIS will identify possible impacts of the proposed project and their significance. Strategies to mitigate potential impacts are also outlined in the Draft EIS.

Public Comment Deadline: May 23, 2006
Permits Required: State Land Use Boundary Amendment, Zoning

The site of the proposed Kapolei Harborside Center is 345 acres of former agricultural land. The majority of the site is vacant, though existing on-site uses include a nursery, a green waste collection and compost processing operation, fill material stockpiling, and a coal conveyor belt that transports coal from the harbor to HECO power stations to the south of the site. Intended use of the site is industrial and proposed development includes industrial pads, supporting infrastructure, and preservation of sensitive areas.

New industrial development in this location will provide new job opportunities for the expanding communities of Kapolei, 'Ewa, the Wai'anae Coast and Central O'ahu. The requested changes from Agriculture to Ur-

Public Comment

Deadline: May 23, 2006
Status: Draft environmental assessment (DEA) notice pending 30-day public comment. Address comments to the applicant with copies to the approving agency, consultant and OEQC.

Permits

Required: SMA, Historic District Approval, Demolition

The subject property falls within the limits of the Special Management Area (SMA) for the island of Maui. Accordingly, an application for a SMA Use Permit has been prepared and submitted to the Department of Planning for review and action by the Maui Planning Department. The property also falls within the limits of the County Historic District 1 (HD1), for which an application for a Historic District Approval (HDC) has been prepared and submitted to the Department of Planning for review and action by the Maui Cultural Resources Commission.

Additionally, inasmuch as the subject property is located within the Lahaina National Historic Landmark District, a draft environmental assessment has been prepared in accordance with Chapter 343, Hawai'i Revised Statutes.

The applicant, Wai'ola Church, is proposing to demolish a 1200 square foot meeting building built in 1958. Once demolished, the site will be grassed and maintained as open space. The project site is identified as Maui Tax Map Key 4-6-007:016.

This draft environmental assessment is prepared in accordance with Subchapter 6, §11-200-9 of Chapter 200, Environmental Impact Statement Rules of the Department of Health, State of Hawai'i.

West Maui Clubhouse-Boys and Girls Club of Maui (HRS 343 FEA-FONSI)

District: Lahaina
TMK: (2)4-6-012:005
Proposing Agency: County of Maui, Dept. of Parks & Recreation
 700 Halia Nakoa St., Unit 2, Wailuku, HI 96793

Determination Agency: Same as above.
Consultant: Hiyakumoto & Higuchi Architects, Inc.
 1860 Main St., Wailuku, HI 96793
 Contact: Calvin Higuchi (242-9705)

Status: Final environmental assessment (FEA) and Finding of No Significant Impact (FONSI).

Permits Required: State Land Use Commission Special Use Permit, County Conditional Permit, NPDES Permit, Grading & Building Permits

The proposed improvements will also include modifications to the parking lot, a relocated entrance driveway, and site landscaping.

The project is within the “Agricultural” district designation as established by the State Land Use Commission. As the proposed (and existing) use is not listed as a permissible use of Agricultural lands as set forth by Section 205-4-5, H.R.S., the applicant is seeking a State Land Use Commission Special Use Permit for the project. The West Maui Community Plan designates this parcel as “Park”. The County Zoning Ordinance designates this parcel as “Agricultural”. As the project’s “use” is not an outright permitted use in the Ag zone, the applicant is also seeking a County Conditional Permit.

Long term adverse impacts are not anticipated due to this project. Any short term impacts such as fugitive dust and noise during the construction period will be mitigated appropriately by the contractor.

The County of Maui Department of Parks & Recreation, in conjunction with the Boys & Girls Club of Maui (BGCM) proposes to expand the West Maui Clubhouse building in Lahaina Recreation Center (Waine’e Park) at 280 Shaw Street in Lahaina to facilitate the expansion of the youth programs and growing membership. The propose site encompasses approximately 2 acres (which is delineated for leasing and licensing purposes only) within the 22.219 acre park site.

The proposed project involves renovation of the existing 3,003 square foot clubhouse building and a 4,572 square foot addition. The proposed building area will be 7,575 square feet.

Existing Boys and Girls Club of Maui Clubhouse building- Makai southwest Honoapiilani Hwy side toward playfield.

Hawai'i Notices

APRIL 23, 2006

Mamalahoa Highway Improvements-Parking Lot and Bus Shelter (HRS 343 DEA)

District: South Kona
TMK: (3) 8-1-12:5 & 6

101 Pauahi St., Ste. 7, Hilo, HI 96720-8360
Contact: Casey Yanagihara (961-8004)

Determination Agency: Same as above.
Consultant: Brian T. Nishimura, Planning Consultant
101 Aupuni St., Ste. 217, Hilo, HI 96720
Contact Brain Nishimura (935-7692)

Public Comment Deadline: May 23, 2006
Status: Draft environmental assessment (DEA) notice pending 30-day public comment. Address comments to the proposing agency with copies to the consultant and OEQC.

Permits Required: Approval of Construction Plans Public Work, Planning

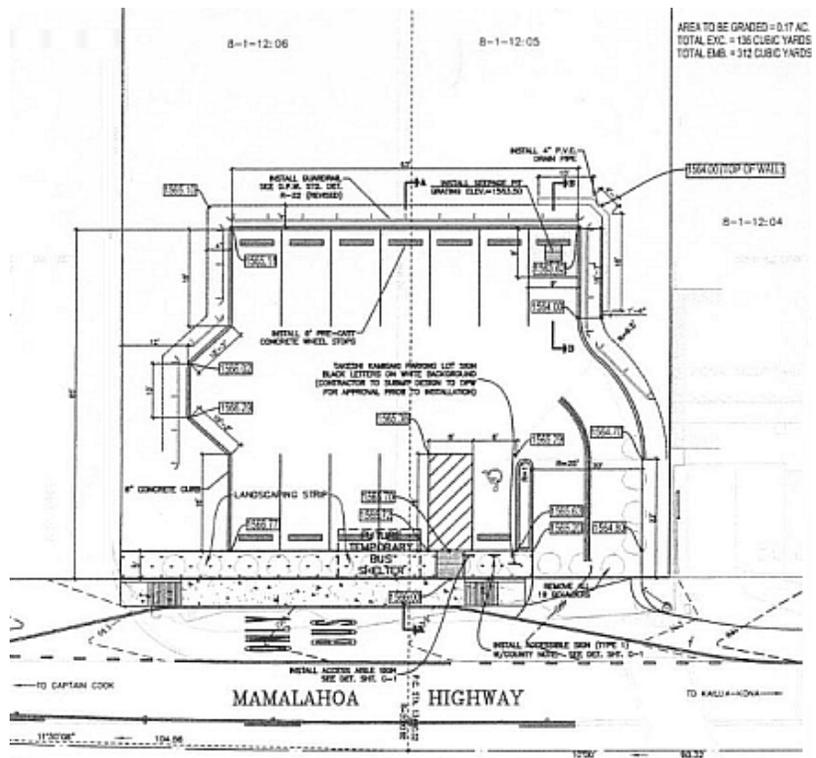

include two-way left turn lanes, paved shoulders and sidewalks where possible. The improvements planned within the Mamalahoa Highway right-of-way have been determined to be exempt from the requirements for the preparation of an environmental assessment because they are considered repairs or maintenance of existing facilities which involve no change of use beyond that previously existing. As such, the subject environmental assessment is limited to the new construction of the parking lot and bus shelter within the two parcels that will be leased from a private land owner.

The County of Hawai'i Department of Public Works (DPW) is proposing to develop a parking lot and bus shelter to serve the community of Kealakekua, South Kona, Hawai'i. The property involved is situated on the west side of the Mamalahoa Highway, approximately 234 feet south of the Ke'eKe'e Street-Mamalahoa highway intersection, at Ke'eKe'e 1st, South Kona, Island of Hawaii, TMK: (3) 8-1-12:5 & 6.

The County is proposing to lease two privately owned parcels of land which consists of 8,460 square feet (parcel 5) and 8,416 square feet (parcel 6) to construct the parking lot and bus shelter. A preliminary site plan has been developed showing a minimum of 11 standard parking stalls and 1 accessible stall. A future temporary bus shelter, approximately 9' x 15' in size is also shown on the preliminary site plan. The final layout and total number of stalls is subject to topographic conditions found on the property.

The proposed parking lot and bus shelter are part of the County's Mamalahoa Highway Improvement Project which extends from Honalo to Captain Cook and is intended to address problems related to traffic congestion within this busy corridor. In addition to the subject parking lot and bus shelter, other improvements planned within the Kealakekua Section of the project

Preliminary Site Plan

Anahola Well No. 3 Pump, Controls, Pumphouse and Pipeline (HRS 343 DEA)

Public Comment Deadline: May 23, 2006
Status: Draft environmental assessment (DEA) notice pending 30-day public comment. Address comments to the proposing agency with copies to the consultant and OEQC.

Permits Required: Building Permit

The proposed project consists of developing an existing well and constructing a deep well pump station for the Department of Water (DOW), County of Kaua'i. The well is 466 feet deep, with 12-inch solid casing for the upper 290 feet and an open hole for the lower 176 feet.

The new pump and ancillary equipment will provide an additional 350 gallons per minute to the Anahola Water System. The discharge point is the existing 0.15 MG & 0.50 MG reservoirs on the site (spillway elevation = 288.0).

The project site is owned by the State Department of Hawaiian Home Lands (DHHL) and its facilities are operated by the DOW under a license agreement. This project will be the water source for DHHL planned residential subdivisions including Anahola Residential Lots, Unit 6 presently in the design stage.

Kaua'i Notices

APRIL 23, 2006

Kapaa Fire Station (HRS 343 FEA-FONSI)

District: Kawaihau
TMK: (4) 4-6-14:26 (por.)
Proposing Agency: County of Kauai, Public Works Department
4444 Rice St., Lihue, HI 96766
Contact: Douglas Haigh (241-6650)

Determination Agency: Same as above.
Consultant: Belt Collins Hawaii Ltd.
2153 S King St., Ste. 200, Honolulu, HI 96819
Contact: Glen Koyama (521-5361)

Status: Final environmental assessment (FEA) and Finding of No Significant Impact (FONSI).

Permits Required: Class IV Zoning Permit, Use Permit, & SMA Use Permit, NPDES Permit may be required.

The proposed building will be constructed of concrete masonry units with a stucco-like exterior finish and asphalt shingle roofing. The architectural style will be similar to the fire station in Koloa, Kaua'i.

The new station, preliminarily, will require a Use Permit and Special Management Area Use Permit from the County of Kaua'i. It may require an NPDES permit.

The estimated cost of construction is approximately \$5.0 million, exclusive of planning, permitting, and design work. County funds are expected to be used to finance the project.

Construction could begin in 2006 once all government permits and approvals are secured. Construction is projected to take approximately 12 months to complete.

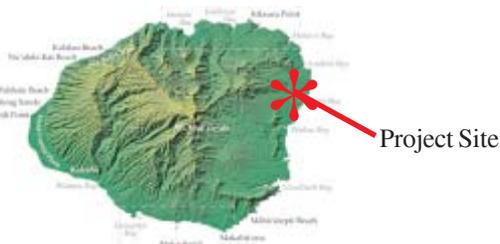

The County of Kaua'i, Public Works Department, is proposing to construct a new fire station in northern Kapa'a to supplement and improve existing services for the Kapa'a district. The new station would add to services currently provided by the Waipouli Station. The need for the new station is to support the higher volume of calls arising from the overall growth of population in the district and residents locating to the outlying areas.

The new station will be a full-service facility consisting of an engine and rescue company capable of handling structure fires, wild land fires, emergency medical calls, and rescue calls.

The new station will have pumper trucks, wild land tank trucks, and emergency medical/rescue truck. A staff of 15 firefighters would operate the station on a rotational shift with 3 to 5 firefighters manning the station at any one time.

San Francisco, CA 94105.
ph.415-972-3563

The Department of Water Supply, County of Hawai'i (COH DWS), proposes to construct new, or improve existing, drinking water spigots at 6 locations on the Island of Hawai'i. These installations will allow for safer conditions and improved access to potable water for persons living in communities which predominantly or exclusively use rainwater catchment systems. The County has identified the greatest need for improvements and/or additional spigot locations in the Puna, Ka'u and South Kona Districts. The project is anticipated to be completed in 2009.

The construction cost of the project is estimated at \$720,000. Funding will be provided by the COH DWS, and through a grant from the U.S. Environmental Protection Agency (EPA).

Pursuant to the National Environmental Policy Act (NEPA) and the Hawai'i Revised Statutes, the County has completed a final Environmental Assessment (EA), dated February 2006, to evaluate the environmental consequences of the proposed action and discuss the alternatives considered. EPA has accepted the County final EA as their Federal draft EA. Based on information from

¹ Informal letters warning a person or entity that they are violating environmental laws normally requiring corrective action by a specified deadline. Informal actions generally cover less serious issues such as small infractions by individuals, or violations of permit technicalities which do not directly impact environmental quality.

² Formal enforcement cases generally cover any serious violation and repeat or continued violations of permits or the law. Warning letters, if not adequately responded to, can lead to formal actions. Specifically, formal cases are administrative enforcement proceedings that typically include a formal notice of violation and an order. Orders often require corrective action, reports, and payment of a penalty. This section also includes field citations.

³ The amount of the penalty result might not equal the amount sought at issuance. Consent orders or other agreements, as well as negotiating S.E.P.s, may raise or lower the final penalty amount.

⁴ Formal cases are concluded by settlements or final orders from which no further appeal is available.

⁵ A Supplemental Environmental Project (S.E.P.) or Environmentally Beneficial Project, may be undertaken in addition to, or partial or total substitute for, a comparable monetary penalty, depending on the program.

Formal Enforcement Actions and Settlements Completed by DOH

Notices of violation issued from January through March 2006 are summarized below. The summaries do not constitute exact descriptions of the violations. For complete and accurate descriptions, please contact the specific DOH branches.

Clean Water Branch

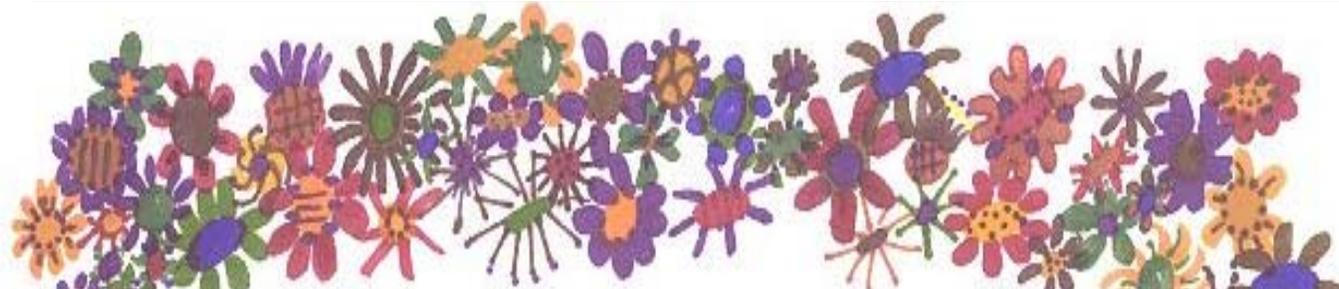

On February 24, 2006, **Maryl Pacific Construction, Inc.** of Honolulu was served a Notice of Violation based on a violation in October 2005. The company discharged turbid water from its Hawaii Baptist Academy construction site through storm drains to Nuuanu Stream. They were not permitted to discharge into State Waters, and did not report the discharge to DOH. Maryl Pacific, Inc. also violated other Best Management Practices required by its Notice of General Permit Coverage. Maryl Pacific, Inc. has committed similar violations in the past. They were ordered to report, in detail, the steps to be taken to prevent future discharges and violations and to pay an administrative penalty of \$8,200.00

Pollution Control Permit Applications

SDWB, UIC Permit	County of Kaua'i Dept of Public Works UK-2446	Salt Pond Park Main Pavilion Lokokai Road, Hanapepe, Waimea	n/a	Abandon 3 unregistered injection-well cesspools.
SDWB, UIC Permit	County of Kaua'i UK-2447	Kekaha Neighborhood Center Elepaio Road & Amakihi Road Kekaha, Waimea	n/a	Abandon 2 unregistered injection-well cesspools.

Pollution Control Permit Applications

APRIL 23, 2006

Clean Air Branch

On January 5, 2006, a Notice of Violation was served to the **Chevron Products Company** for a violation of a special condition of their Covered Source Permit (CSP). A flare at the Hilo Marketing Terminal exceeded the total organic compound emission limit as specified in their CSP. They were ordered to take corrective action and were fined a penalty of \$3,700.00

Department of Health Permits

The following three pages contain a list of some pollution control permits currently before the State Department of Health. For more information about any of the listed permits, please contact the appropriate branch or office of the Environmental Management Division at 919 Ala Moana Boulevard, Honolulu. Abbreviations are as follows: **CAB** - Clean Air Branch; **CD** - comments due; **CSP** - Covered Source Permit; **CWB** - Clean Water Branch; **I** - issued; **SHWB** - Solid and Hazardous Waste Branch; **SDWB** - Safe Drinking Water Branch; **N** - none; **NSP** - Noncovered Source Permit; **NPDES** - National Pollutant Discharge Elimination System under the Federal Clean Water Act; **R** - received; **T** - temporary; **UIC** - Underground Injection Control; **NA** - not applicable.

Clean Air Branch

Branch Permit Type	Applicant & Permit Number	Project Location	Pertinent Date	Proposed Use
CAB, NSP	Castle & Cooke Resorts, LLC NSP 0544-01-N (Modification)	Well No. 14, Lanai City, Lana'i	Issued: 3/29/06	One (1) 306 hp Diesel Engine Generator
CAB, NSP	Aloha Petroleum, Ltd. NSP 0322-02-N (Modification)	999 Kalaniana'ole Avenue, Hilo, Hawai'i	Issued: 3/30/06	Three (3) External Floating Roof Aboveground Storage Tanks with Geodesic Domes and One (1) Tank Truck Load Rack

Coastal Zone News

Special Management Area (SMA) Minor Permits

Pursuant to Hawai'i Revised Statute (HRS) 205A-30, the following is a list of SMA Minor permits that have been approved or are pending by the respective county/state agency. For more information about any of the listed permits, please contact the appropriate county/state Planning Department. City & County of Honolulu (523-4131); Hawai'i County (961-8288); Kaua'i County (241-6677); Maui County (270-7735); Kaka'ako Special Design District (587-2878).

SPECIAL MANAGEMENT AREA (SMA) MINOR PERMITS		
Location (TMK)	Description (File No.)	Applicant/Agent
Honolulu: Kane'ohe (4-7-58-10)	Utility Installation with 3 panel antennas & equipment cabinet (2006/SMA-14)	Clearwire LLC / Cascadia PM, LLC (Charles Fortner)
Honolulu: Makaha (8-4-4-6)	Utility Installation with antennas and equipment cabinets (2006/SMA-17)	Clearwire LLC / Cascadia PM, LLC (Charles Fortner)
Kauai: Po'ipu (2-8-20-4)	Roof over existing staircase (SMA(M)2006-23)	Poipu Makai AOA
Maui: Kahului (3-8-1-19)	Fuel tanks & containment sump (SM2 0060032)	Air Maui
Maui: Hana (1-3-9-85)	Subdivide into 2 lots (SM2 20060033)	Arakaki, Wayne
Maui: Lahaina (4-2-1-28)	Interior remodel (SM2 20060034)	Alan Fleisch
Maui: Kihei (2-1-8-140)	Modular building for golf instruction (SM2 20060035)	Wailea Golf LLC
Maui: Kihei (3-9-11-39)	Dwelling addition, lanai & carport (SM2 20060036)	Alborano, Louis

Shoreline Certification Applications

Pursuant to § 13-222-12, HAR the following shoreline certification applications are available for inspection at the DLNR District Land Offices on Kaua'i, Hawai'i and Maui and at Room 220, 1151 Punchbowl St., Honolulu, O'ahu (Tel: 587-0414). All comments shall be submitted in writing to the State Land Surveyor, 1151 Punchbowl Street, Room 210, Honolulu, Hawai'i 96813 and postmarked no later than fifteen (15) calendar days from the date of the public notice of the application. If there are any questions, please call Nick Vaccaro at (808) 587-0384.

File No.	Date	Location	Applicant/Owner	TMK
KA-197 Corrected TMK	3/13/05	Lot 206 of Land Court Application 956, land situated at Koloa, Island of Kaua'i Address: None Assigned Purpose: Building Permit	Esaki Surveying and Mapping, Inc./ Po'ipu Beach Villas LLC	2-8-15:75

Document File Library Instructions

Anyone can go to our ftp site to get a pdf copy of a final EA and a handful of NEPA. OEQC has EAs from 1990 to some current projects. In the March 23rd, 2006 *Environmental Notice* we showed you how to access the library location and download a pdf version to your computer. **Reminder:** to locate the file you need to know the title and/or publication date below we show you how to access our locator database, to find the proper title or publication date.

Website address: [HTTP://DOHCOLAB.DOH.HAWAII.GOV/SITES/FTPOEQC](http://DOHCOLAB.DOH.HAWAII.GOV/SITES/FTPOEQC)

Example search for Kawaiiloa Beach Park Project

1. Open the locator database
2. On the Menu bar click edit and FIND.

Enter the Project Name or key phrase related to the project. Project names must be exact to get a match, so a key word or phrase is better if you are unsure of a *published* project title.

Make sure the match type is "any part of field" for best search results.

Or look in another column.

This box allows you to search other column information besides project name. Please be advised that a TMK search may give you incorrect information.

3. Keep clicking on the Find Next until you find the project you want

[Find next] will search the database for the next instance in the database.

4. Cancel anytime or do a new search if you haven't found what you wanted. But if you find your project, just cancel to get out of this screen then look at the file itself. Be sure to note the exact project title and date. There may be times when the locator will list a project but the file will not be located in the library, in those situations you can contact our office and we will research our files to see if it was overlooked in the scanning process and get a scanned copy online when it becomes available. Note. The library only contains FONSI documents. Recently we have placed a Draft folder for Draft pdf files if submitted, which will eventually be eliminated when the project becomes a Final.

PROJECT	DATE	STATUS	DISTRICT	AREA
AMERICAN RED CROSS HAWAII HEADQUARTERS RENOVATION	9/23/2005	FONSI	HONOLULU	HONOLULU
TESORO HAWAII SAND ISLAND FUEL TERMINAL EXPANSION	9/23/2005	FONSI	HONOLULU	HONOLULU
HAWAII REGIONAL SECURITY OPERATIONS CENTER	9/23/2005	FONSI	WAHIAWA	WAHIAWA
KAWAIILOA BEACH PARK	9/23/2005	DEA	WAIALUA	WAIALUA
KAMOEOA WASTE WATER TREATMENT FACILITY CLEARWELL RESERVOIR	9/23/2005	FONSI	MAKAWAEO	MAKAWAEO

Project Name

Publication Date

Type of Project (FONSI, EIS, ETC)

Environmental Tip

APRIL 23, 2006

Document File Library Instructions (Continued)

5. Once you get the information you are now ready to access the document itself. FEAs are sorted first by year.

2005 Year Folder

As you can see there are other types of documents besides FONSIs

6. At the second level the projects are sorted by island so open the Oahu folder

Contains all Projects on O'ahu

7. Lastly the projects are sorted by publication title look for 2005-12-23 OAFEA Kawaiioa Beach Park

Type	Name	File Size	Modified

Document	2005-12-23-OA-FEA KAWAIILOA BEACH PARK	24018 KB	2/6/2006 3:11 PM

Publication date, island, type and name

8. If you right click on the project name a popup menu comes up. Select save target file as. This will allow you to send a copy to your hard drive. If you just want to see the document just left click on it this may take a couple of minutes depending on the size of the file.

If you do not have adobe Acrobat a free reader maybe obtain at <http://www.adobe.com/products/acrobat/>

Open Discussion of Troubleshooting and Your Experiences with the Document Library

In our next consignment for the document library will be open to discussion. Please let us know what problems, quick fixes or funny experiences you've had with our document library site. The site address changed on us because we purchased a new server just for the document library. We know a few of you that have tried to access our site have had difficulties with a domain name pop-up. For these people, please be patient with us as we try to find a remedy that will work for you. Currently if you are running Windows XP or Windows 2003 this is not an issue but people running older windows software may have seen this pop-up. One solution is to upgrade your software where possible. If anyone else is running an older version of Windows and still getting in please contact us so that we can learn how you bypass this pop-up.

Another problem that may be an issue is the fact that our library sits on an FTP server and not the World Wide Web and some people are having problems because of this. If anyone else is having this problem and found a solution it would be great if you could contact us again and tell us how you overcame this error.

Our goal is to make the library access to everyone that wants to look at a project or review a project for commenting. This saves in postage, time delays, research time and documents at the comfort of your home or office.

APRIL 23, 2006

Pelagics Plan Team (PPT) Meetings in Honolulu

The Western Pacific Fishery Management Council (Council) to hold meetings of its Pelagics Plan Team (PPT) in Honolulu, HI, to discuss fishery issues and develop recommendations for future management.

The meeting of the PPT will be held on May 2-4, 2006, from 8:30 a.m. to 5 p.m., each day. The meeting will be held at the Council Office Conference Room, Western Pacific Fishery Management Council, 1164 Bishop St., Suite 1400, Honolulu, HI 96813; telephone: (808) 522-8220.

Agenda items:

Tuesday May 2, 2006, 8:30 a.m.

1. Introduction
2. Annual Report review
 - a. Review 2005 Annual Report modules and recommendations
 - b. 2005 Annual Report region-wide recommendations

Wednesday & Thursday May 4 & 5, 2006, 8:30 a.m.

3. Modifications to the pelagic annual report
4. Recreational fisheries
5. International fisheries issues
 - a. Report on the second meeting of the Western & central Pacific Fishery Commission
 - b. Report on the International Scientific Committee for tuna and tuna like species in the North Pacific, including stock assessments for North Pacific albacore tuna, northern bluefin tuna and striped marlin
6. Management options for bigeye tuna catches by the Hawai'i tuna longline fishery
7. Management options for the Hawai'i swordfish longline fishery
8. Fishing effort increase in the Hawai'i longline fishery
9. Hawai'i offshore mixed line fisheries for tunas
10. South Pacific albacore fisheries
11. Other business

The PPT will meet as late as necessary to complete scheduled business. Plan Team action will be restricted to those issues specifically listed in this document and any issue arising after publication of this document that requires emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the Council's intent to take final action to address the emergency.

For More information or Special Accommodations: These meetings are physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Kitty M. Simonds, Executive Director (808) 522-8220 (voice) or (808) 522-8226 (fax), at least 5 days prior to the meeting date.

National Marine Fisheries Service (NMFS) reorganizes existing fishery regulations by creating a new part for western Pacific regulations

This rule organizes the regulations into a logical and cohesive order; it does not make substantive changes to existing fishery regulations. This rule also amends references to the Paperwork Reduction Act (PRA) information collection requirements to reflect the reorganization. The purpose of this rule is to make the regulations better organized and easier for the public to use. Effective April 10, 2006.

In 2004, NMFS established a new Pacific Islands Region and Pacific Islands Regional Office with responsibility for administering NMFS conservation and management programs in the western Pacific. Those responsibilities are no longer in the purview of the NMFS Southwest Region. Thus, the realignment of regulations for fisheries in the western Pacific is consistent with the new regional office that is responsible for their administration. In addition to the above reasons for regulatory reorganization, the Western Pacific Fishery Management Council is in the process of creating fishery ecosystem plans that will apply ecosystem management principles to fisheries, consistent with the Magnuson-Stevens Fishery Conservation and Management Act. Those plans will shift management from a fishery or species basis (e.g., pelagic species, crustaceans, etc.) to one based on geographical areas (e.g., American Samoa, Hawai'i, etc.). The move to ecosystems management will require reorganization of the regulations for western Pacific fisheries into geographic areas; such reorganization will be facilitated by the current action.

The restructuring allows interested fishermen, managers and the general public to readily access the regulations. No substantive changes are being made to the regulations, but several administrative titles and telephone numbers are updated. In 50 CFR Part 660, subpart A (general provisions) is not re-designated, but is edited to apply solely to west coast fisheries, and a new 50 CFR Part 665, subpart A, is created for western Pacific fisheries.
